

**YAMPA is 185 miles from Denver on the Moffat railroad. Is situated in the prosperous valley of the Yampa river, surrounded by cattle and grain ranches whose products are noted for their records and high standard. Has an abundance of water for irrigation; the finest stock range in Colorado. The climate is mild and very healthful; lakes, streams and woods abound with fish and game. The tourist's paradise and the homeseeker's haven, with unlimited opportunities for the investor.**

## Garage and Machine Shop to Open Soon

## French Blacksmith Buildings Being Remodeled for New Enterprise

## William Macfarlane Proprietor of New Business Will Have in Car Load of Autos For Spring Business

William Macfarlane has opened up a garage and machine repairing shop in the French building. He will make extensive improvements in the place and will install a power lathe and an acetylene welding plant to do all kinds of heavy machine repair work. A five barrel gasoline tank and filtering station will be placed at the garage and as soon as the spring work opens up he will have the services of a first class mechanic. Mr. Macfarlane has already secured the agency for the well known Chevrolet automobile and has placed an order for a car load of various sizes and styles. An addition will be built to be 30x40 feet of fire proof material adjoining the present buildings which will be used for storage and sales room.

## JUST NEWS

### From Anywhere About Anybody

The Jerry Starkey home was the scene of a very pleasant one o'clock New Year's dinner party requiring two long tables to accommodate the invited guests. Mr. and Mrs. Starkey presiding at the grown-ups table around which gathered Mr. and Mrs. Harry Kavin, Mr. and Mrs. W. A. Charls, Mrs. Godfrey and husband, Miss Virginia Godfrey, Miss Lella Lansing, W. A. Palmer, Gordon Laughlin, Leo Starkey and Miss Lottie Starkey. At the children's table over which Miss Lois Starkey presided were the Misses Lucille Kavin, Ruth Kavin, Catharine Charls, Elmore Charls, and Phillip Kavin with Jerry Harvey Starkey as chief fun maker. After an hour of feasting the party repaired to the parlors and spent the afternoon with cards and games.

A watch party was given by Mr. and Mrs. Harry Kavin at their home on New Year's eve, the likes of which has not been known since so many of the Yampa people used to gather at the Summer ranch on similar occasions. Those who watched the old year out with Mr. and Mrs. Kavin were Mr. and Mrs. J. F. Wilson, Mr. and Mrs. Jerry Starkey, Mr. and Mrs. Chas. Wheeler, Mr. and Mrs. John Cole and Mr. and Mrs. E. H. Godfrey. The old year died and the new year was born to a welcoming toast by the hostess and ringing of bells by the guests.

Mr. and Mrs. John Cole entertained a party of friends for Sunday dinner, those present being Mr. and Mrs. J. L. Williams, Mr. and Mrs. Mark Cole, Mrs. Alice McFarland, E. W. and Max Hwang, Fred Vertrees and Reid Williams.

Mr. and Mrs. Ernest Brower gave a very pleasant dinner party

## Woodmen of the World Have Watch Party

The Woodmen of the World entertained their members and friends at a watch party and oyster supper on New Year's eve at their hall. Over one hundred people accepted their hospitality, the evening being spent in card playing, looking at moving pictures, speeches and feasting. Toward the small hours the entire party went over to the Masonic hall where a New Year's ball was being given and enjoyed the dancing till breakfast time.

On New Year's day, the guests being Mrs. Bryce, L. R. Crichton and Fred Vertrees.

Mr. and Mrs. J. F. Snyder spent the holidays with their son, Alton Snyder at Oak Creek. L. F. Heimbrod has engaged in the meat business at Oak Creek. He will run a wagon from house to house.

Over two hundred dollars worth of cream was shipped by Yampa ranchers during December. This made a nice little Christmas check for the few ranchers who are milking their cows.

James Brobeck, the genial salesman who makes Yampa for the Brown wholesale house is carrying an extra box of cigars this week. A fine seven pound girl is the cause and Jim has added another inch to his smile.

Mrs. Elmer Stephenson accompanied Walter and Anna Rittmayer to Denver Monday and will remain there for a time. Miss Anna returning to her school work at Loretta Academy. Walter will devote his time to his music and also do some preparatory work with a view to entering the State University at Boulder next fall.

Prof. Hyatt is some rabbit hunter according to his own story. While spending Christmas at Craig he shot 39 in half a day and but for the fact that he ran out of ammunition would probably still be shooting rabbits.

The Routt County Sentinel has started out a stay-at-home dollar and will keep a record of its travels and useful acts for a time. It will be interesting to know just how many bills this dollar will pay.

A. R. Talbot, an employe of the Victor-American mine suffered a severe accident last week when he was caught by falling rock and received a gash in the scalp which required nine stitches.

## FARMERS' INSTITUTE TO BE HELD HERE NEXT WEDNESDAY

## DINNER BY YAMPA BUSINESS MEN FOR VISITORS

## Leading Lecturers From the Colorado Agricultural College and Other Prominent Men of the State to Be in Yampa and Take Part in Work of the Institute

The annual Farmers' Institute will be held at Yampa on the above date and a general invitation is extended to all interested in Institute work to attend. The Institutes are arranged by the Colorado Agricultural College and the lecturers are men of wide experience and specialists in their various lines. Every rancher and cattleman in the county should make it a point to attend these Institutes and gather all the information he can. Come prepared to tell your own experiences and difficulties. These men wish to give you all the help possible in your work.

Tell your neighbors about the Institute and bring them along with you. All the sessions are free and open to the public.

The following is the program as at present arranged, some changes may be made later, but only to add to the efficiency of the work of the Institute:

### MORNING SESSION 9:45

Address of Welcome ..... Mayor John W. Cole, Chairman  
Work and Purpose of Institute ..... Prof. W. W. Robbins  
Ranch Irrigation ..... Prof. E. B. House  
Poisonous Plants on Western Ranges ..... Prof. W. W. Robbins  
Live Stock ..... Gov. E. M. Ammons  
Dinner at Grand Hotel. Courtesy Yampa Business Men.

### AFTERNOON SESSION 1:30

Drainage ..... Prof. E. B. House  
Marketing Live Stock ..... Gov. E. M. Ammons  
Operation in Building Northwest Colorado ..... Mr. W. H. Paul  
High Altitude Crops ..... Prof. W. W. Robbins  
Question Box and General Discussion (Closed in P.M.)

### EVENING SESSION 8:00

Music  
High Altitude Plant Life (Illustrated Lecture) ..... Prof. W. W. Robbins  
Feeding Live Stock ..... Gov. E. M. Ammons  
Training Farmers and Housekeepers at C. A. C. ..... Prof. E. B. House  
(Illustrated Lecture)

### SPEAKERS

Prof. W. W. Robbins is head of the Department of Botany of Colorado Agricultural College. Ex-Governor E. M. Ammons is one of the leading men of the state and has been in the cattle business for many years.

Prof. E. B. House is head of the Department of Civil and Irrigation Engineering of the Colorado Agricultural College.

Mr. W. H. Paul is the General Passenger Agent of the Moffat railroad.

### COMPLIMENTARY DINNER

By courtesy of the business men of Yampa a complimentary dinner will be given to all visiting ranchers and their wives at the Grand Hotel at 12:30, for which tickets will be issued by the local committee in charge.

The county clerk has been advised that hereafter all hunters must have a license with them otherwise they will be subject to penalties of hunting without a license.

Walter Collier and Thomas Vliet, defendants in the recent Oak Creek town suit have been placed under bond by order of Judge Shumate, charged with contempt of court, for failure to pay their share of the referee's expenses.

P. W. Philbbs of Pagoda spent the holidays with friends at Colorado Springs.

Mrs. D. H. Laffea and daughter spent the holidays at Greeley.

L. M. Klinesmith came in Saturday and left with his son Ivan Wednesday for Ellensburg, Wash., where they will spend the winter.

Tom Miles and family returned from Morrison creek the first of the week. They had been at the ranch for the holidays.

Eight hundred head of the Benton cattle are being fed at the Crossan ranches on Egeria creek.

Bob Gray came in Wednesday from Eagle, where he has been the past few months.

Mrs. J. T. Larimore came up

from Sidney Thursday to be with her father, Grandpa Bird, who has been quite ill this week.

Mrs. George Bockfinger returned from Cripple Creek Wednesday evening, where she had been spending the holidays with parents.

Chas. Keen, Hugh Williams and others are organizing a six-piece orchestra.

Bert Cole and wife have returned home from the Ben Male ranch, where they have been the past month.

Fred Stell, from Delta, came in the first of the week to assist Ranger Stephenson with the timber sale work on the White River forest, there being such a demand for timber on this part of the forest that one man could not handle the work.

Clinton Wheeler and his new bride returned from their honeymoon trip Tuesday and are now at the Wheeler ranch.

J. A. Orr has been confined to his bed the past week by a severe attack of the grippe.

The B. F. Allen ranch home on Watson creek was the scene of a family gathering on New Year's day.

Eunice Foye spent New Year's at the Rockhill ranch.

Mrs. Frank Blue and two sons, Edith Bongardner, Mr. and Mrs. Cronar and family, Robert Phillips, Fricia Bongardner and Roberta Wilson spent New Year's with Mrs. Bongardner at her home on Hunt creek.

Mr. and Mrs. William Macfarlane went to Oak Creek New Year's day and had dinner with Mr. and Mrs. Cassidy. On Sunday they were all entertained at the Dr. Kennedy home.

Zeb Stevens and Miss Olive French were married at State Bridge Thursday, Dec. 30, by Rev. Hickland. The groom is well known here, being prominently identified in the cattle industry here. The bride is the daughter of Mr. and Mrs. M. C. French and has lived in Yampa about twelve years. The many friends of the happy couple join with The Leader in extending congratulations.

Frank Brewer returned home Thursday from a trip to Silt, Garfield county, where he went to look at some land.

STRAYED—Four horses branded with C on the jaw and Z on the hip. One bay mare with buckskin colt, branded VT. One black mare 3 years old. Send any information in regard to these horses to James Adams, Yampa, Colo. 38tf

## Gymnasium and Reading Room For Yampa Schools

## The Room Formerly Occupied by The Leader Has Been Secured

## Athletic Material Will Be Procured---Room to Be Equipped For Indoor Sports---Several Basketball Games For the Winter

### Antlers Hotel Property Sold

The Antlers hotel property, including all the buildings on the place and the contents of the hotel, has been purchased by William M. Cramer, who has already taken possession. He will continue the barber shop and pool hall business, taking personal charge and employing a first class barber.

### PINNACLE

Hugh Chapman went to Oak Creek last Wednesday to see his wife.

Everet Van Wert spent last Wednesday with Eugene Lindsey, it being Eugene's 8th birthday.

Some school marm sent Victor Hughes a big bag of peanuts last week.

Margaret Chapman spent last Wednesday night visiting with Erna Lindsey.

Mrs. Charlie and Jake Boyles, both of Dunkley, spent last Wednesday night at Walter Chapman's on business.

Walter Chapman went to Yampa last Wednesday, returning Thursday.

Mr. and Mrs. Van Wert went to Oak Creek last Thursday to see their sister, Mrs. Hugh Chapman, who is improving now. They brought the baby home with them. Mrs. Van Wert will care for it until the mother is better.

Mr. and Mrs. Ernest Welch and little son went to Bill Male's last Saturday on business.

Dot and Edith Dunckley, Erna Lindsey and Paul Chapman, bunch of college students, went thru Pinnacle last Sunday on their way to Yampa and Fort Collins to resume their studies.

D. M. Chapman went to Yampa one day last week, returning the next day.

Bill Bird went thru Pinnacle last Sunday on his way to Williams Fork with the teacher, Mrs. Laffea, who had been to Denver for the holidays.

James Phillips was our mail carrier last Monday. He was broke in a week ago for this trip. Bill was off for the day on a much more important business.

Bill Bird stayed all night at Victor Hughes' last Monday, on his way home from Williams Fork.

We seemed to be somewhat disconnected with the outside world last Monday and Tuesday, although we could hear them talking in Denver. We thought it might be possible, the way the wind blew here Tuesday, that we

The Yampa schools have long felt the need of a gymnasium and reading room, one in which the scholars could hold all their indoor sports. Our boys and girls have been buffeted from pillar to post and at times have not been able to play basketball for the lack of a proper hall. The school board and teachers have often discussed the matter, but the district has never felt able to build a suitable building, which would be the best solution of the difficulty, and so have gotten along somehow. Now, thro the efforts of Prof. Hyatt and other teachers and scholars, the room formerly occupied by The Leader in the Royal building has been used for the use of our scholars. It will be arranged for basketball and a number of games will be played during the winter. The girls are being supplied with Indian clubs and other athletic material will be supplied as can be arranged. The Camp Fire girls will help on the expense, and a number of entertainments will be given by the school for the benefit of the gymnasium.

### Items Concerning

#### The Ladies' Aid

The Ladies' Aid will meet with Mrs. Godfrey Thursday, Jan. 13. Election of officers.

A special meeting of the Ladies' Aid was called at the home of Mrs. John Cole Monday, Jan. 3, for charitable purposes.

If every person knowing themselves to be in possession of dishes belonging to the Ladies' Aid, will kindly return them to the secretary at its next meeting at Mrs. Godfrey's, it will be appreciated by all concerned. An invoice can then be taken and a custodian appointed for the year.

### NAME THE BABY

Grandad Wagschal is all worked up over the arrival of a baby girl at the home of his daughter Mrs. Annette Schmitt who lives in Iowa and he is lost for a name. Pikes Peak would do for a boy, but is not half good enuf for a girl. From Colorado the name must come and neither Silver nor Gold will do. Then why not Yampa or Egeria or Columbine and if one of these will not fit the little lady we will try again. had been blown over the Pigeon Tops. Billie Rockhill, our genial telephone man, came out to see what was wrong, and spent several hours tying wires, and now we are right side up with the world again, thanks to Billie.

Last Tuesday the neighborhood turned over a new leaf, feeding one another's cattle—not doing so intentionally—on account of those gentle zephyrs that prevailed over the country.

"A tax could also be imposed on such products as gasoline, crude and refined oil, horsepower of automobiles and other internal combustion engines, and various other things." (Annual report of Secretary McAdoo.)

Tax babies at baptizing;  
Tax maidens for each dance;  
Tax the Democratic badge—  
The patch upon our pants.

Tax each glass eye, each false tooth,  
Make every Silas Wegg  
Place a ten-cent sticker  
On his wooden leg.

Tax our horse, the widow's cow,  
The organ-grinder's monkey,  
And, not show partiality,  
The Democratic donkey.

Then, if these will not suffice,  
The treasury to save,  
Grab Henry George's single tax  
And clapp it on each grave.

American wool growers will be interested in the news that wool valued at \$15,000,000 is on the way here from Australia, South Africa and Argentina in a fleet of nearly twenty chartered steamships. The foreign producers will pay no revenue tax to the United States treasury, but will sell it in competition with American growers, who pay county, state and federal taxes. "America first" is mere a slogan—nothing more—to the men who made the Underwood tariff law.

Henry Ford has an automobile factory in Canada. It is not the river that prevents his selling his "Made in America" machines in Canada—it is a high tariff wall. So the Ford Company took its capital and invested it in a Canadian factory, giving employment to Canadian labor, furnishing business for Canadian merchants, placing money in Canadian banks and paying taxes to the Canadian government. Canada is wise. So will the American people be wise when they reconstruct the demolished tariff wall which will keep European and Asiatic products out of American markets and thus rebuild and protect American industries.

—The Routt County Sentinel.

"Pay as you go" is the policy advocated by President Wilson in his message. But his preaching loses much of its force in view of the Democratic practice of incurring a deficit even when only the normal expenditures must be met.

—The Routt County Sentinel

When Was He in the Legislature?  
"The legislature, pa—" "The average legislature, my son," replied J. Fuller Glenn. "It's a debating society wherein nobody knows what he is talking about, and does not care anything about what anybody else is talking about."

## IMMORALITY OF EFFICIENCY.

"Efficiency" is coming almost in as much disrepute as "uplift." They are two words that Americans are beginning to dodge when they read them, or are moved by them to strong and contemptuous language. The one, in the popular mind, is coming to express something akin to mental rut and physical slavery; the other to express a pompous hypocrisy. Both are good words, both are essential to honest and right living. But they have been rather overworked. The excess of good is evil, and a writer in the Atlantic Monthly sees moral failure in the modern cult of efficiency worked to the conclusion of its overzealous promoters. Efficiency as so promoted, as an educational system and a vocational objective, is, as he puts it, "a splendid success if the world is a factory, but a monstrous failure if it should happen to be more than that." Every wise administrator and executive should also want some loose joints and sufficient flexibility in his organization. No organization in the world can be fully effective or lasting if it hasn't these two features. Otherwise it will blow up of its own too much, or wear into a mechanical rut that has no moral sense, no spiritual motor force, no initiative and no sense of loyalty or responsibility.

English admirals, since Lord William Howard sent a shot flying across the bows of the great ship of King Philip of Spain, have ceased to exact homage for their flag in the channel. Richard I, when he set sail for the holy land, found his flag and his patron saint provided for him by the church—St. George and his red cross on a white ground, says London Chronicle. The flag took its natural place on the sea as on land. But Richard floated another banner at the mast head—a red flag with three gold lions. The king's ships of those early days carried these two as well as streamers. Signaling by means of flags gets its very first mention in 1380: "When it shall please the admiral of the fleet he shall carry high in the middle of the mast of his ship a banner of council."

The poisons and disagreeable odors are always associated in our minds with the disinfectants. We know germs are routed and destroyed by the liberal use of ill-smelling drugs. Fragrance and sweetness, too, play an active part in disposing of unwelcome germs. The odor of cloves has been known to destroy microbes in 35 minutes; cinnamon kills some species in 12 minutes, and thyme in 35 minutes. The common wild verbena is found to be an effective destroyer of microbes in 45 minutes. The odor of some geranium flowers has destroyed various forms of microbes in 50 minutes.

The shoe manufacturers declare they will return to simple and sensible shoes for women. It would be better not to make them too sensible, else the women may refuse to wear them and go barefooted.

The salaries of English actors have been cut in half by the war. To make matters worse, the reduction affects what they actually get and not what their press agents say they receive.

A western editor says that a homely girl tastes just as sweet as a pretty girl when you're in the dark. He must have got hold of the wrong girl in the dark recently.

Talk of treating submarine warfare as piracy ignores the fact that a submarine has no facilities for hoisting a black flag or making anybody walk the plank.

With Mex dollars worth only 25 cents, those twenty cheap Americans held for counterfeiting Mex money ought to feel about like that amount.

The wireless telegraph is another invention which was designed to make life happier and easier, but which drifted into warfare.

A modern fort is a complicated affair, but perhaps the most complicated feature is the barbed-wire entanglements surrounding it.

A Maine town reports a domestic who slept 84 hours. A good many housewives will find nothing extraordinary in that.

Some cities are beginning to puzzle over this question: "If a jitney can be run so cheap, why is a taxicab?"

Not a murmur remains of protest against the squandering of American gold by tourists.

**SELECTING SIRE FOR DAIRY**

Breeds Standing at the Front in This Country Are Holstein, Jersey, Guernsey and Ayrshire.

In choosing the sire choose one from any dairy breed which may be preferred. The straight dairy breeds that stand in the front in this country are the Holstein, Jersey, Ayrshire and Guernsey. There are other good dairy breeds but these are the four oldest and best of all. The choice being made don't change the breed from which the sire is chosen, and exercise great care in choosing the sire.

The individual points of a good dairy sire cannot be given in detail here, but two of these will be mentioned, because they are in a sense, indispensable. The first is the evidence of much stamina and bodily vigor. The second is, an amplitude of soft skin

splendid Type for Head of Dairy Herd

in the underline in front of the testicles, distinctly traceable milk veins and miniature teats of good size and wide spacing. The performance of the udder of the bull should be examined. The more good performers it has upward line of ancestry the better food performance on the part of an estral female means the giving of large quantities of milk rich in quality and persistence in milk giving for a long period. The successive sires should be chosen from the same breed. If chosen from another breed disturbing factors are inevitable. This may not be apparent at the first, but it will later. The antagonism likely to result cannot be explained here. By adhering to his line of breeding the improvement should be rapid and continuous, a cost for several generations. But the improvement will be less noticeable with each succeeding generation.

**CEMENT FLOORS FOR STABLE**

Gutters Should Be Laid First With Slight Fall at One End—Use Wooden Trowel for Finishing.

When laying cement floors, gutters should be laid first with a slight fall to one end. These should be 4 to 6 inches deep and 15 to 18 inches wide. The distance from gutter to stanchion should be about 4 feet 6 inches or ordinary cows. Large cows may need 4 feet 10 inches or 5 feet, while small heifers require only a 4-foot fall.

The floor should slope to the gutter from each side. The passage behind the cows should be at least 8 feet wide to allow cows to pass without crowding. The floor should be finished with a wooden trowel rather than a steel one, as the latter makes a smooth, slippery finish that when wet is very difficult for the cows to walk on safely.

**TEST ALL THE DAIRY COWS**

Use Move for Farmer to Send Unprofitable Animals to Butcher—Many Are Mere "Boarders."

If a cow is not well qualified for dairy purposes it does not pay to keep or for dairy purposes. There is economy in testing all the members of dairy herds and sending the unprofitable cows to the butcher. Farmers in San Joaquin county, Cal., have organized for this purpose. Farm Adviser Lyons, who is directing the efforts of the organization says: "The movement is one that means a great saving to farmers, and it is bound to spread over the entire state. It will probably be found that 20 and 25 per cent of the cows in the average herd are not paying for their keep. The dairyman will make money by selling these cows for beef."

Vaseline is Beneficial. Milkmen who have difficulty milking dry should rub a little vasoline on their hands. This practice is not a filthy one, as wetting the teats but has a beneficial effect upon them.

No Best Dairy Breed. No dairy breed has a monopoly on all the good dairy cows. With the recent high development of the various breed associations all the breeds have excellent stock.

Moisture in Incubator Tends to Increase Hatch of Eggs—Also Adds to Weight of Chick.

A test made in April, 1914, by the New Jersey experiment station to determine the efficiency of a 300 egg capacity incubator gave a percentage of hatch of fertile eggs of 77.1 and a percentage in July of 85. Comparing compartments run dry with those run wet it was observed that the latter gave a much higher percentage of hatch as well as an increase in the weight of the chicks. The average weight for the dry being 1.2 ounces and for the wet 1.25 ounces.

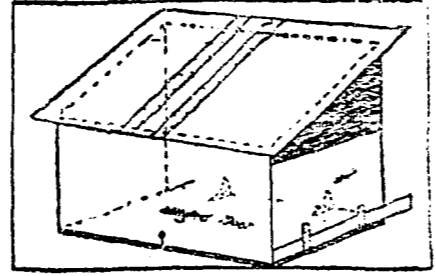

Four brooders of 100 week-old chicks each were fed for nine weeks, two lots receiving a regular ration and two other lots receiving in addition all the sour milk they would consume.

The first two brooders made a total gain of 48.62 pounds and 42.35 pounds and the mortality was seven and one-seventh respectively, while the last two brooders made a total gain of 82.22 and 81.84 pounds and the mortality was twenty-eight and twenty-eight respectively. It was found to require 3.6 quarts of skim milk to produce a pound of body weight. It is stated that the skin-slicked chicks represented a more uniform flock than those not so fed. It has been concluded that skim milk has the power to kill the organisms which cause many poultry diseases, the bacilli being destroyed by the dilute acid of the sour milk.

**DURABLE COOP FOR CHICKENS**

Illustration Gives Outline of Sanitary Pen for Confining Chickens—Simple in Construction.

This drawing shows the plan of a chicken coop we designed and had been using the last ten years. The coops are made in the winter time when the men are not busy with other work. They are made of 12 and 14 inch soft pine boards. They are 20 inches long, 18 inches wide, 15 inches high

Sanitary, Safe and Durable.

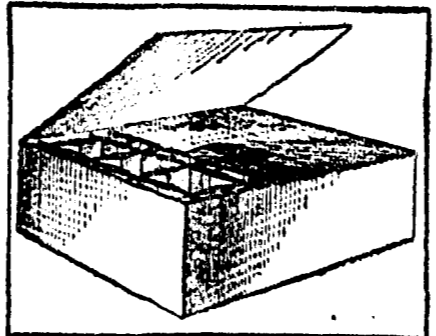

front and a foot high at the back. The roof extends over the side walls about 3 inches on all sides, writes Mrs. S. M. Penhart, in Farmers Mail and Breeder. The floors are hinged on as shown and the coops are painted inside and out. Wire screen is put in the ends as shown, to provide ventilation. The little side door permits chicks to come and go. The material in each coop costs about \$1. We use the coops from year to year as they are cleaned out every fall and put away in the dry during the winter. I have never yet lost a chicken in these coops, either by drowning, smothering or through having some animal get in.

**FILLERS FOR EGG CARRIERS**

Shocks Incident to Shipping and Handling of Fragile Articles Will Not Cause Breakage.

The Scientific American in illustrating and describing a filler for egg cases, invented by C. P. Daly of New York, says:

This invention relates to fillers for egg cases or carriers and more particularly to an improved double-walled filler of such construction that shocks

Filler for Egg Cases.

incident to the shipping and handling of eggs or like fragile articles will not cause the breakage or injury thereto as is now commonly caused.

Improving the Flock. Raise a few more pullets than you will want for layers, then you will have a chance to pick out the best and sell the culls. In this way you will improve the flock.

Eggs for Winter. How many eggs are you putting away for next winter? Be sure they are fresh and then use a 10 per cent water-glass solution.

His Following. Friend—When you delivered your lecture on Browning in that little town you said you were going to last summer, did the audience seem to follow you? Lecturer—"Oh, yes; they rose as one man and followed me to the nearest freight train."—Florida Times-Union.

**Catarhal Deafness Cannot Be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface of the middle ear. Hall's Catarrh Cure acts on the inflamed condition of the mucous surface of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists. F. J. CHENEY & CO., Toledo, O.

**Lots of Fun at Winter Carnival**

New Features Added to Program For Big Steamboat Tournament Held in February

The Steamboat Springs Ski club and the various committees working on the arrangements for the big carnival of mid-winter sports to be held in Steamboat Springs February 16, 17 and 18, are all busy in preparing a far better program of events than presented at either of the previous tournaments. The ski course, acknowledged by professionals to be such that it can be made the fastest in the world, will be put in the pink of condition, and many of the most famous ski riders have already signified their intention of coming here to take part in the professional contests. A meeting of the club was held yesterday afternoon, when it was decided to encourage local amateur talent by holding a series of preliminary contests, to take place once each week for the next two months. Arrangements were made to provide two medals as prizes, one to be offered to boys under 15, and the other to jumpers over that age, to be awarded each week. At the close of the series of contests, the one in each class who has made the best record will become the permanent owner of the medal. The first of these events will occur tomorrow afternoon at the course across the river from town.

Carl Howelson, the most famous skier in Colorado, has been engaged to come here 10 days before the tournament, to take personal charge of the work of preparing the professional and amateur courses and putting them in the best possible condition. Arrangements have also been made with the Pathe moving picture concern to have representatives here, to take pictures of the principal events including the professionals while making the big jumps. These pictures will be shown during the year in every city in the United States, and will result in much valuable advertising for the annual Steamboat Springs carnival.

M. D. Schaefermeyer has announced that he will offer a large silver loving cup to the amateur making the best record.

The committee appointed to prepare the toboggan and sled course has made good progress with its plans and this feature will provide sport which will be new in Routt county. The course will start at the C. W. Fitchett ranch and come down the hill back of the elk park, terminating at the warehouse of the Watson mercantile company. It will give a run of one mile, and as the grade is very steep, will provide lively fun. A big scraper has been built, like a flat-bottomed boat, and it will be frequently dragged over the course, making it hard and firm. The committee in charge of this matter consists of Philip Hines, C. R. Monson, A. V. E. Wells, Fred Beck, Roy Shady, Fred Charles Daer, Earl Giesbrecht, A. M. Cook, Cliff McClelland and C. E. Crosswhite.

The Woodmen of the World have decided to unite with the carnival committee in helping to make the February carnival a big success and will have a Booster Day during the tournament. They will take part in the program, and plan to select a King of the Carnival, to be crowned at the grand ball to be held at the Cabin hotel on Friday evening, February 18. The Woodmen will have a big fraternal meeting the previous evening, when they will entertain members of their order from all of the camps in northwestern Colorado.

A big outdoor skating rink of natural ice, with prizes for fancy skating, skijoring and many other winter sports will add to the fun of the visitors during the three day carnival, and there will be dances each evening. —The Routt County Sentinel
